SOUVENIRS

“CO-CREATING PRODUCTS THAT GIVE
LASTING MEMORIES OF GREAT DAYS OUT”

Welcome to our new 2021 e-brochure!

Our portfolio of products and services continues to develop as we co-innovate with hundreds of attraction destination clients loved and visited by so many.

From world-class museums, historical monuments of culture and natural history to family-friendly parks and attractions, you can reach out to us with confidence that we are the supplier of choice. If you're a visitor attraction, we want to work with you!

Product Safety & Compliance

Product Safety and Compliance both remain a top priority as we grow and develop in order to protect our customers brands, maintain positive reputations and manage risk.

Keeping up to date with legislation is paramount in the ever-changing environment we find ourselves in and we do this by continuing our partnership with independent advisors to the British Toys and Hobbies Association and maintaining key memberships such as SEDEX and BSI.

Our relationships with leading QA providers Intertek and QIMA continues for their regulatory expertise, to verify the design, safety and quality of our products. This along with regular factory audits, gives our clients absolute peace of mind. Our comprehensive toy safety assessment, product testing, record keeping and compliance systems ensure our products meet the obligations and requirements of the relevant Directives and Standards.

Sustainability

We remain committed to a strong sustainability strategy. It now flows through every department within the company from an eco driven review of packaging materials to a no.1 agenda point for all product development talks. This means you can be assured its a business imperative for us, in order to remain relevant in today's world and to help our clients achieve their retail sustainability goals.

UK Print

When you pick from this section for your souvenirs, you are in safe hands. Fast turnaround and lower than ever MOQs are now the norm, along with the additional products from our recent acquisition of Carole Souvenirs!

Our traditional print production facility carefully places every product on the print machinery by hand, ensuring superb results and a sharp eye on QA along the way. Products are in stock, retail ready with barcode labels and are logo printed using our eco-friendly, non-toxic inks at a rapid pace, delivering product into store within a 7-10 day period from order acknowledgement.
